

Return to Online Services

Due to the rapidly increasing spread of the Covid-19 virus in our area the elders of Agape have decided that the wise thing to do in light of the rise in cases right now is to return to online only services for the time being.

As a guide to when we will be online only and when we will have in person services again, we've decided to mirror what La Porte Community Schools are doing at the time. If La Porte Community Schools are online only during the week, then that following Sunday we will also be online only. During that time we won't have any other activities in the building either.

This means tomorrow, November 29 and Dec 6 our services will be online only.

We will still livestream both our Sunday morning and Sunday evening services as we have before and I want to encourage you to gather together with a few other believers for worship only if you can do so safely.

Special Christmas LaPorte PADS

For our Special Christmas offering this year we're going to take up a special offering that could bless a lot of folks who are in need in our community.

Last year La Porte established the La Porte PADS, a shelter for those who are homeless and have nowhere else to go. They were able to help a lot of people last year, and they are all set to help the folks of our community again this year as well. But it also costs a lot of money to keep that going.

This we're going to take up a special Christmas offering to support this ministry that is helping a lot of people in our community when they need it most. Make sure your checks are marked

La Porte PADS Donation in the memo or if you want to give online there's a category there for it as well.

Operation Christmas Child

We are so excited to see that we had 70 packed boxes for this mission! What a blessing. Please be in continue prayer over the child who will receive these boxes. Thank you for participating in the great mission.

Elder/Deacon Nominations

It's that time of year when we start making decisions about what next year will look like both with the budget and the leadership of the church. We have established a nominating committee of three individuals that you can go to if there is someone you think would be a good choice as an elder or a deacon for Agape in the coming year.

We want to make sure everybody gets to be a part of this process, so since we aren't all in the building every week we're providing phone numbers and emails so you can reach these guys whether you're here in the building or not.
